Profile Summary
Passionate and detail-oriented **full-stack web developer** with strong problem-solving skills. Highly adaptable, self-motivated, and eager to learn new technologies while delivering high-quality solutions.

Technical Skills
Languages: JavaScript, TypeScript, C, C++, Python
Frontend: React, Next.js 15, Redux, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, MongoDB, Mongoose
Tools & Platforms: Git, GitHub, Postman, Vercel, Render, Visual Studio Code
Other: JWT Authentication, WebSocket, ImageKit.io Integration

Project
ConnectIn — LinkedIn Clone | *Next.js 15 (TypeScript), React.js, MongoDB*
GitHub | Live Demo (*Demo Credentials — Email: demo@connectin.com | Password: dEmo1234*)

- Developed a **full-stack social networking platform** inspired by LinkedIn that enables users to create profiles, post updates, and engage with others in real time.
- Implemented **secure authentication and authorization** using **Next AUTH**, including **sign-up, login, and password-reset** features with **email verification** through **NodeMailer**.
- Designed a detailed **user-profile system** supporting education, work experience, skills, languages, and an about section.
- Integrated ImageKit.io for cloud-based profile and cover-image storage, efficiently saving image URLs in the database.
- Built a **dynamic home feed** displaying posts from other users with **like, comment, and repost** functionality.
- Added **search functionality** to discover and view other users' profiles, with profile-specific content and privacy handling.
- Developed a **real-time one-on-one chat system** using **WebSockets**, enabling instant messaging between users.
- Styled the entire application with **Tailwind CSS** and deployed it on **Render**, ensuring a responsive design and smooth user experience across devices.

Experience
Web Development Intern — Mentoga (via Skilled Score**)**
Remote | June 2025 – July 2025
Worked on several hands-on projects, which helped enhance my technical and problem-solving skills.

- *Developed a **portfolio website for a freelancer** using **React, HTML, CSS, and JavaScript**, emphasizing responsive design and user experience.*
- *Built a **blog platform with content management functionality** using **Next.js** and **MongoDB**.*
- *Created an **e-commerce product listing page** with dynamic filtering and product details using React components and REST APIs.*
- *Developed a **task management dashboard** with **authentication and CRUD operations** using **Next.js and Node.js**.*
- *Built a **weather forecast web application** integrated with an external weather API for real-time data.*

Education
Bachelor in Computer Science — *Nov 2021 to Nov 2025*
Qurtuba University of Science and Information Technology, Pakistan
